*we dedicate*

Mr. George S. McSwain

The 1970 REVELEER is dedicated to a man whose record of service to Gaston College speaks for itself. His hours of work go uncounted; he makes no mention of them.

Since joining the college staff in 1966, he has accepted responsibility willingly and has carried out his duties in a truly superior manner, maintaining at all times a warmth and friendliness of spirit that is uniquely his own. His title of Dean of Instruction of all Programs seems hardly adequate to cover the scope of his work.

Because of his dedicated service, his never ending cooperation, and his sincere interest in young people, the students respectfully dedicate the 1970 REVELEER to Mr. George S. McSwain.

## Dr. Woodrow B. Sugg

To the President of Gaston College is given the sometimes difficult, often impossible, task of unifying the many divergent factions that compromise the whole of a living institution such as Gaston College. The keynote is progress, and the instrument is harmony for Dr. Woodrow B. Sugg.

Challenged by a capable and demanding student body, Dr. Sugg has been continually sympathetic to the collegiate student mood. His sincerity in dealing with student opinion, whether it be from the Student Legislature or an individual student, has won for him the respect of the Student Body.

Encouraged by an ever-loyal alumni and community friends of the college, Dr. Sugg's administration has welcomed with grateful enthusiasm a record-breaking Building Fund Campaign. The construction of the new Industrial Building and Activities and Fine Arts Building shows early promise and indicates the progressive direction Dr. Sugg hopes to follow, aided by students, faculty, Board of Trustees, alumni and other friends of the college.

Dedicated to the total academic advancement of the college, Dr. Sugg has maintained his interest in providing Gaston with the best faculty and academic equipment in the history of the institution at a time when the college sits at the threshold of optimum service to the people and industrial firms of the area.

I, Great Citadel, will cast My shadow  
of knowledge over pure white  
stone and jet black glass . . .  
To bring forth Our youthful throng  
from this Our land.

Help Me stretch My limbs to grasp  
these goals.  
My youth can travel these turnpikes  
to knowledge, sportsmanship and  
recreation.

With boundaries so endless—wonder  
not at minds made strong and bodies  
agile . . . then I in full glory will  
acknowledge pride . . . fully . . . that I  
am Their COMMUNITY COLLEGE.

Working together  
 is like a clock  
 Whose face is laminated with twelve parts,  
 Each divided into five individuals;  
 And from its center,  
 Rotating clockwise,  
 Are three factions:  
 One small, one large, and still  
 another longer than the others,  
 yet seemingly narrower;  
 But all three with one central idea —  
 to move forward together:  
 And carved on its countenance  
 the words,  
     Co-operation:  
     Shock resistant.
